FOR THE 886 CLUSTER PROJECT - BWM-001-98

Enclosed are five copies of the revised IM/IRA plan for the 886 Cluster Project. This revision incorporates resolutions to comments to the previous draft and has been reviewed by the regulators and RFFO through the consultative process. Upon review and concurrence by your office, the document is ready for submittal to the Colorado Department of Public Health and Environment and the Environmental Protection Agency for their review and agreement to release for public comment. Also enclosed is the Administrative Record (AR) index file summary indicating the current contents of the AR. This index file summary is for submittal to the regulators, along with the IM/IRA, for their review and agreement of contents of the AR.

Notification of concurrence by your office and its submittal to the regulators for agreement to release for public review would be appreciated. If you have any questions, please contact me at X3432 or John Whiting at X7592.
